- ☐ Action requires an appropriation increase to the Operating Budget
- ☐ Action provides increased revenue for appropriation increase
- ☐ Action requires use of contingency or reserves
- ☒ Other financial impact (Explain): Action is within grant budget
- ☐ Request provided to the Budget Office when provided to the Committee Coordinator

Background/Supporting Information

Dear Council Members:

Hennepin County has announced the availability of funding for assessment and clean up of contaminated or potentially contaminated sites within the county. We propose to apply for and use these funds to perform lead reduction at 4219 2nd Avenue South. This dwelling is the site of lead poisoning in a child under the age of six. Lead risk assessment has been conducted and it has been determined that the soil and exterior surfaces of the building are lead contaminated and require remediation. No matching funds are required for the awards.
